CANAL+

CANAL+ PREMIER PARTNER OF PREMIER LEAGUE IN MORE THAN 50 COUNTRIES

CANAL+ proudly reinforces its position as a global media leader by securing the broadcasting rights to the Premier League – the most competitive and spectacular national football league in the world - **in over 50 countries** across Europe, Africa and Asia*, with expanded rights in Poland and the addition of Myanmar from the upcoming season.

CANAL+ thus reaffirms its role as a major partner of the Premier League. This historic collaboration – ongoing for over 30 years – continues to grow, reaching a potential audience of more than 1.5 billion people worldwide.

In all these territories, CANAL+ will give fans full access to legendary clubs, global stars, and iconic derbies – live and exclusively on CANAL+ channels and the CANAL+ app.

Commentary is provided by local-language experts, ensuring a personalised and engaging experience.

At CANAL+, immersion is a promise. From the first whistle, the viewer is not just a spectator – he's part of the team.

To take this viewing experience even further, CANAL+ will offer a multiplex broadcast every Saturday, featuring four matches simultaneously – available in most territories across Europe, Africa, and Myanmar.

Beyond live coverage, CANAL+ offers a rich editorial experience: shows, exclusive documentaries, behind-the-scenes access, interviews, pre-match build-ups, and post-match analysis. Everything is designed to bring fans closer to the pitch.

And with innovative features like multi-live and expert mode available on the app, the experience becomes even more immersive.

This strategic milestone strengthens CANAL+'s leadership in premium sports broadcasting and reflects its commitment to delivering the best football and sports experience – accessible to everyone, everywhere, anytime, on any device.

As sport remains a key driver of engagement and loyalty, this new momentum enables CANAL+ to continue offering unmatched Premier League coverage in its most strategic markets.

**including France, Mauritius, Haïti, Poland, Switzerland (French-language), Czech Republic, Slovakia, Vietnam, Myanmar and Sub-Saharan Africa.*
